BENEFITS & FEATURES OF AUTOMATED ROLLER SHUTTERS

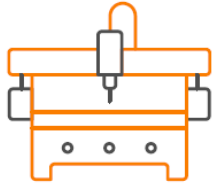

SILENT TRACK MATERIAL

- Noise Reduction when Operated
- Reduction of noise caused by wind.

WE MANUFACTURE OUR OWN PRODUCTS

- Therefore no risk of shortages.
- Quality guaranteed.
- We are able to manufacture custom sizes of up to 8m wide.

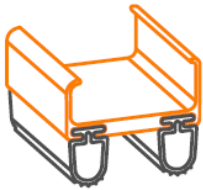

ANTI DRIFT & 1-SIDED COATED SLATS

- Less horizontal movement.
- More cost effective than powder coating.

CONVENIENT AND SPACE EFFICIENT

- Easy remote control operation.
- Ideal suited for any area.
- Seamless Construction of Canopy.

DOUBLE RUBBER ON BOTTOM BAR

- For a better seal between the floor and the bottom bar of the roller shutter.

AFTER SALES SERVICE AND SUPPORT

- We believe in delivering quality products combined with excellent customer service, and provide maintenance & repairs.
